# MOTORCYCLE FUNERALS

FOR A DIGNIFIED FINAL RIDE

## British Built and available Nationwide

*Britain's first and only fleet of Motorcycle Hearses*  
**Triumph, Suzuki Hayabusa, Harley Davidson and  
other hearses all available Nationwide**

As the loudest hearse on our fleet the Café Racer with Goldie pipes, ear plugs not provided, is popular with World War 2 Dispatch Riders, Teds, Ton up Boys, Rockers, Bikers and Traditionalist Motorcycle enthusiasts alike. It has also been requested by Triumph car owners.

As a **Proper British Bike** this tasteful motorcycle is taken as seriously with non motorcyclists as it is with life long motorcycle enthusiasts. As a **Proper British Hearse** it is constructed to UK Funeral Profession Specifications with a large flower rail, Health and Safety load level, internal temperature control for warm weather and de-misting and the combination of a glass roof with internal lights to display flowers and artifacts. The small doors at the front enable the deceased's boots to be placed at the front when requested.

As with all of the hearses in our unique fleet this vehicle has been examined and legally classified by DVLA as a **hearse**. Regrettably it doesn't quite make 'the ton' like our Hayabusa, but it sure sounds like it!
