MOTORCYCLE FUNERALS

FOR A DIGNIFIED FINAL RIDE

**British Built and
available Nationwide**

**Suzuki Hayabusa, Triumph, Harley Davidson
and other hearses all available Nationwide**

Tested by Fast Bikes Magazine and out accelerated by no other hearse this unique combination is ideal for well paced, fast and very fast funerals as well as traditionally paced funerals and fully walking paced funerals. Although it can do **The Ton Up** with ease such runs dependent on finding a suitable place, the law and the weather so we advise a simple **Last Blast** instead.

This Suzuki Hayabusa Hearse has caught the imagination of the nation and been the hot topic on National Television's **Fifth Gear**, **Robbie Coltrane's B Road Britain**, **Friday Night with Jonathan Ross** and various news items. From **Jeremy Clarkson's** column in The Sun to the most conservative broadsheet newspapers we are pleased to report a consistent respect for the Motorcycle Funerals Limited motorcycle hearse experience.

The hearses constructed by Motorcycle Funerals Limited are the UK Funeral Industry Standard. Each has internal lights and air cooling, a glass roof, pillion seat, stainless steel flower rails, can hold a casket or British coffin and offer small front doors for the deceased's boots. Each vehicle has been examined and legally classified by DVLA as a **hearse**.

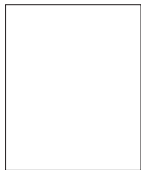

Without doubt the Suzuki Hayabusa Hearse presents the Ultimate Final Ride.
