MOTORCYCLE FUNERALS

FOR A DIGNIFIED FINAL RIDE

British Built and available Nationwide

Britain's first and only fleet of Motorcycle Hearses
**Triumph, Suzuki Hayabusa, Harley Davidson and
other hearses all available Nationwide**

This tasteful motorcycle hearse remains our unique fleet's No 1 choice with the discerning public. Featured on BBC1's **Robbie Coltrane's B Road Britain**, numerous other television broadcasts and in the press it is perhaps ironic that a vehicle so conservative and traditional could become so iconic.

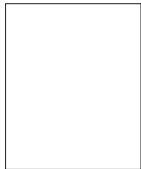

As a **Proper British Bike** this tasteful motorcycle is taken as seriously with non motorcyclists as it is with life long motorcycle enthusiasts. As a **Proper British Hearse** it is constructed to UK Funeral Profession Specifications with a large flower rail, 'Health and Safety' load level, internal temperature control for warm weather and de-misting and the combination of a glass roof with internal lights to display flowers and artifacts. The small doors at the front enable the deceased's boots to be placed at the front when requested.

Legally classified by DVLA as a **hearse** and complete with a Funeral Director's pillion seat this vehicle is truly the UK Funeral Profession's Standard for motorcycle hearses.

Motorcycle Funerals Limited
